## Electric Soft Parade, Have You Ever Felt Like It's

I tried to make it look like you'd been cruel What else could I do? I was holding onto you I thought you'd run away and leave me small Little did I know, you were holding out for a call

Now who can we trust to open the door Have you ever really been there? Have you ever felt immortal? Have you ever felt like it's too late?

I watched you take your love to someone else The stupid things I said what was happening in my head? The times are changing and I'm all for that but you've got to watch your step with a noose around your neck
