

Electric Soft Parade, Sleep Alone

This is what I say when I can't say to you
This is what I do when I can't say to you
Out of time
Out of touch

And on through the dark nights we sleep alone
As if all we know is true

This is what I say when I can't say to you
This is what I do when I can't say to you
Out of time
Out of touch

And on through the dark nights we sleep alone
As if all we know is true
What it takes to feel
To be alone
