

Electric Wizard, We Hate You

A seed of hate from the day I was born
My right to vengeance from me has been torn
Hopeless and drugged - my black emotions seethe
Loveless and cold - my hate begins to breed.

Black nebula, seething in my brain
Then your fucking world brings me down again
So i'll take my fathers gun and i walk down to the street
I'll have my vengeance now with everyone I meet, yeah!

A seed of hate from the day I was born
My right to vengeance from me has been torn
Hopeless and drugged - my black emotions seethe
Loveless and cold - my hate begins to breed.

We... hate you! (repeat to the end)
