

Electrocutes, Doombuggy

I don't even know why I lied
But I know you know I know you spied
And if you go tell Mom and Dad
That's gonna make me real real mad
I'm gonna make you go crazy
Put tin foil in you cavities

[Chorus]

I want to go
Everybody let's go
Leave him behind and no one to fuck with my mind...

I don't even know...
Let's leave my brother behind
Cause with him there it's so confined
Let's not take him to see Disney
Cause he's always so mean to me

[Chorus]

I want to go
Everybody let's go
Just you and me
And no one to get in between

I've never been to Disneyland
But you can take me
I won't be bad
And if you go tell Mom and Dad
That's gonna make me real real mad
I want to see Disney and he's always so mean to me

[Chorus]

I want to go
I'm all packed now
Leave him behind
And no one to fuck with my mind
