Electronic, Imitation Of Life

Inside my imagination There is an imitation of life You captured me for an instant Still in your camera and in your life The head of a hungry pack of hounds Will track me down

Say it's not over Let's say a prayer Let's turn it over Show that we care. Walk in the desert Lie in the shade We'll be together Don't be afraid.

Say it's not over.

I'll move to the other side of town I'll lead you to the underground We'll live within our hollow space We're in a dream we both embrace And if tomorrow is undone You'll never hear me

Say it's not over Let's say a prayer Let's turn it over Show that we care. Walk in the desert Lie in the shade We'll be together Don't be afraid.

Say it's not over. Say it's not over. Say it's not over. Say it's not over.

Inside my imagination There is an imitation of life You captured me for an instant Still in your camera and in your life The head of a hungry pack of hounds Will track me down
