

# Electronic, Tighten Up

It's never too late I heard you say  
How can you turn and go away  
I'm staking my claim to some degree  
Don't bring the secret home to me  
Better to live than to know  
Better the noise that we love than hate  
Remember the moments we've got  
Whenever I feel like I CAN'T ESCAPE.

There used to be a way but there ain't no more  
Tell me why because we need it  
I used to run away but I can't no more  
'Cause I feel that I can beat it  
There used to be a way but there ain't no more

How can we be free? We both need each other like  
Sister and brother. You mean that much to me  
Better to live than to know  
Better the noise that we love than hate  
Remember the moments we've left  
Whenever I feel I CAN'T ESCAPE.  
I'm never gonna do what you want me to
