

# Electronic, When She's Gone

I'm shaking like a leaf on a tree  
Do you understand, will you come with me?  
Don't make a sound, don't even breathe  
They'll understand, why don't we leave?

We can steal a ride on a bus  
Drive down a road all covered in dust  
Head north by northwest 'til we reach the coast  
We'll find an address that don't get the post

## CHORUS 1

When she's gone  
Even though she won't be long  
It just tears my world apart  
Puts a hole right through my heart

She let me see her new tattoo  
It was my name written in blue  
A mark of pain across her chest  
I was the lover on her breast

So come with me and don't be afraid  
We could be free out of the shade  
Your life has begun, come on lets run  
Over the ground in an air raid  
We've got the gun, don't be afraid

## CHORUS 1

## CHORUS 2

Only when this girl has gone  
Will I know if I am wrong  
Who would choose a life of one?  
I can't carry on when she's gone
