

# Electrosy, I Got U

I just wanna kiss you  
I wanna make your lips blue  
I just wanna kiss you  
The way I do

I just wanna touch you  
You know I'm gonna have to  
I just wanna touch you  
The way I do  
So hold me down I've lost control of everything I do  
You've got me where you want me babe  
But I

I just wanna love you  
you know I'm gonna have to  
I just wanna love you  
The way I do

So hold me down I've lost control of everything I do  
You've got me where you want me babe  
But I

I got you

She don't feel alright  
and I don't feel alright  
She don't feel alright  
tonight

So hold me down I've lost control of everything I do  
You've got me where you want me babe  
But I

I got you
