

Electrosy, In Here We Fall

I wanna get to heaven
But bombed out in hell
I'm strung out so high today
I got nothing to do but get stoned

Living life's a daydream
Not got much better to do
I got away so far today
I got nothing to do but get stoned

Oh, in here we fall

Oh, in here we fall

Instinct gives me pleasure
I don't like the pain
I'm in a mess but I'm impressed
I got nothing to do but get stoned

Oh, in here we fall
Oh, in here we fall
I've got nothing to do
I've got nothing to do but get stoned
