

Electrosy, Special Forces

And you were born with special forces,
Looks to kill and mouth of curses
When it hurts I want to take you down

You were born so I could kiss you
Snort cocaine and lick it off you
All the same I want to take you down

I dream of someone else
Sometimes I hate myself
But I can't change myself
So now you've got me

I'm not your slave but you treat me like an animal
You keep me tied down and twisted on a chain of love
I'm not your slave but you treat me like a loaded gun
You keep me tied down and twisted on a chain of love

You may be pain but I don't regret you
Often still I can't respect you
All of me just wants to take you down

The devil comes and the force is with you
Consideration has never been you
All the same I want to take you down

I dream of someone else
Sometimes I hate myself
But I can't change myself
So now you've got me

I'm not your slave but you treat me like an animal
You keep me tied down and twisted on a chain of love
I'm not your slave but you treat me like a loaded gun
You keep me tied down and twisted on a chain of love
