

# Elemeno P, One Left Standing

Take a lesson from this heart  
As it was broken  
And I know you're torn apart  
With what was spoken

But only if you could see  
What is clear and dear to mw  
Take a lesson from this heart

One left standing is the  
One left stranded is the  
One left crying in the dark

And now it's clear to me  
Just like this night can be  
We sell ourselves so short  
Untill we let it go

Take a lesson from this heart  
As it was broken  
And I know you're torn apart

So from one friend to a friend  
Hearts break, they blend they  
Mend  
Take a lesson from this heart

One left standing is the  
One left stranded is the  
One left crying in the dark

And now it's clear to me  
Just like this night can be  
Well sell ourselves so short  
Untill we let it go

So let it, let it go
