Element Eighty, Newton Trash

I only think about you, when I'm hard
I only dream about you, when I'm hard
My heart is forever, forever burned
I only dream about you, when I'm hard

Chrous:
Hey you, I'm just like everybody
Hey you, I am a little naughty
Hey you, I'm just like everybody
Hey you, I am a little naughty

I thought you might would make me, give it away
I thought you might would make me, take it away
I thought you might would make me, delay

(Chorus)

I'm only using you for your sex
I'm only using you, you stupid bitch
So stopping giving me a complete

You're the trash in the back of my mind
You're the trash in the back of my fucking mind
You're the trash in the back of my mind
You're the trash in the back of my fucking mind
You're the trash in the back of my mind
You're the trash in the back of my fucking mind
You're the trash in the back of my mind
