

Element Eighty, The Same

I am the second one, the reproduction
I am born from you
We are the same, one blood through the veins
attached to you

Identity is lost in me
I cannot see
It's pointless to be, pointless to me
cause everything will always

Stay the same (x12)

Prosthetic soul is all I know
Save me from this hell I see below
I'm a clone, I am nothing
I hope my life means something(x2)

Cause I don't give a fuck
not one motherfuck about what you say
And I don't give a damn
not one good god damn
I never liked you anyway

I have no life
I have no soul
I have nothing to give

Prosthetic soul is all I know
Save me from this hell I see below
I'm a clone, I am nothing
I hope my life means something(x2)

Cause I don't give a fuck
not one motherfuck about what you say
And I don't give a damn
not one good god damn
cause everything will always

Stay the same (x12)
