

Element Of Crime, I'll Warm You Up

Come on quickly sweet face
it's a diing cold night
here's a fire burning
in my hearth

I don't know you
but its alright
there's no reason for any questions
I'll warm you up
it's so cold outside

I couldn't sleep in winter night
when you knocked at my door
now you wanna tell me the reason why

shut up baby,
come closer,
I don't want you to tell me stories
I'll warm you up
it's so cold outside

Please let me take your cold i hope you don't mind
come closer to the fire
I'll warm you up
it's so cold outside
