

Element Of Crime, Welcome To The World

WELCOME TO THE WORLD my dear
You're supposed to be happy hear
Don't you think too much, don't you speak too loud
And don't you ask what it's all about

Straight ahead, neither left nor right
The knife in your pocket, hold it tight
Don't you hesitate when you need it out
And don't you ask what it's all about

Did you see him stumble, did you see him fall
There's nothing we can do, nothing at all
No Sir, we won't help him out
And don't you ask what it's all about
WELCOME TO THE WORLD my dear
You're supposed to be happy here
There's one way in and just one way out
And don't you ask what it's all about
