

# Eleventeen, The First Moment

The first moment you caught my eye  
I knew you were the one,  
I knew it for sure  
My heart skips a beat with every word that falls from your mouth  
Every word that falls from your mouth

And I would search this world over just to see your smile again  
And I am still searching for the words to explain how I feel  
And I would search the world over just to see your smile again  
And I am still here waiting for you

As time expires,  
Our love is growing stronger with every minute that passes  
And I hope that this feeling,  
It never goes away  
It never goes away

And I would search this world over just to see your smile again,  
And I am still searching for the words to explain how I feel  
And I would search the world over just to see your smile again,  
And I am still here waiting for you

I will wait for you
