

Eleventy Seven, Anti-Adieu

Sometimes I don't know what to do cause I'm always thinking about you all the times we had together
hope they last forever and every single word you ever said goes round and round inside my head j
promise me that you'll be true and I'll go crazy over you

Say everything is fine. Don't let me waste my time your eyes will always shine forever lost in mine

I'm so caught up in yesterday I run out of things to say the only thing that I can't see is life
without you here with me I hope you'll call me on the phone cause I don't want to be alone somehow
make this all ok and all my problems go away

[chorus]
