

# Elis, Come To Me

Out of the darkness you came  
You looked so tired and sad  
I asked where you've been  
You answered your voice was quiet  
Out in the cold searching for love  
I said you don't have to search for love

Come to me, come to me  
Rest your head on my shoulder  
Come to me, come to me  
Sleep in peace

Your traveled through the world  
Tasted its food and its love  
But never got satisfied  
You were always looking for more  
Out in the cold searching for love  
I say you don't have to search for love

Come to me, come to me  
Rest your head on my shoulder  
Come to me, come to me  
Sleep in peace

I always loved you  
Just come to me  
And you'll be at home

Come to me, come to me  
Rest your head on my shoulder  
Come to me, come to me  
Sleep in peace
