

Elisa, Written In Your Eyes

Strange how we're both talking
It seems like we're just saying nothing
In the meanwhile we're both hoping
In the meanwhile we both know
That this way we're just gonna

Fall down, down, low,
down, down, down, down
down, down, down, low
down, down, down, down

It's written in your eyes
You're trying too hard
You're trying too hard
It's written in your eyes
You're taking it so far
You're taking it too far

Strange how we are hiding
It seems like we're secretly fighting
In the meanwhile we're both hoping
In the meanwhile we both know
That this way we're just gonna

Fall down, down, low
down, down, down, down
down, down, down, low
down, down, down, down

It's written in your eyes
You're trying too hard
You're trying too hard
It's written in your eyes
You're taking it so far
You're taking it too far

It's written in your eyes
You're trying too hard
You're trying too hard
It's written in your eyes
You're taking it so far
You're taking it too far
And this way we're just gonna

Fall down, down, low,
down, down, down, down
down, down, down, low
down, down, down, down
fall down, down, low,
down, down, down, down
down, down, down, low
down, down, down, down
