

Elise Estrada, Poison

Your love is like my poison
My heart is racing
My skin is burning up
Hands are shaking
But still can't get enough
It's rushing through me
Like fire in my veins (my veins)
Sweet veins (sweet veins)
My body's aching
Aching for your touch
Point of breaking
Mercury is
Love how you do me
Look at the state I'm in (I'm in)
I know you're dangerous
Magnetic hazardous
You should be tacted with a warning

CHORUS:

Can't you see it's slowly killing me
Your love is like poison
I should let go
But there's no antidote
Your love is like poison
Gotta get you outta my system
Gotta get you outta my system
Your love is like a poison
Gotta get you outta my system
But I know my heart won't listen
Your love is like my poison
My head is spinning
Spinning like vertigo
Double vision paralyzing can't let go
Heavy ha-ha-ha
I'm ready to explode
I know
I know you're dangerous
Magnetic hazardous
You should be tacted with a warning

CHORUS:

Can't you see it's slowly killing me
Your love is like poison
I should let go
But there's no antidote
Your love is like poison
Gotta get you outta my system
Gotta get you outta my system
Your love is like a poison
Gotta get you outta my system
But I know my heart won't listen
Your love is like my poison
I was hooked from the first time
That I tasted tainted lips
I was shook
Yeah I know you're bad
But I'm loving it

CHORUS:

Can't you see it's slowly killing me
Your love is like poison
I should let go
But there's no antidote
Your love is like poison
Can't you see it's slowly killing me
Your love is like poison
I should let go

But there's no antidote
Your love is like poison
Gotta get you outta my system
Gotta get you outta my system
Your love is like a poison
Gotta get you outta my system
But I know my heart won't listen
Gotta get you outta my system
Your love is like my poison
