

Elise Estrada, That girl

[that,that girl, wanna be that girl]
[that,that girl, wanna be that girl]
She means the world to you
She's like a dream come true
There's nothing more your could ever ask for
And when you say her name
I disappear again
She's the only one that you have us for
---Hook---

We've always been best friends
No secrets ever kept
But there's one I will never tell
You'll never see the pain
You'll never feel this way
Wanna take a place that I could be

xxxChorusxxx

That girl
The one you're seein, when you're dreamin
Make you laugh, make you cry
Make you feel that if you lost me you would die
That girl
The one you're feelin, when you're needin
You would see, only me
And she wouldn't be, if i was that girl

You mean the world to me
But it's so bitter sweet
When there's just you and me,
You think about her
Im glad you're so happy, but
Deep down it's killing me
So I smile to hide how much i'm hurting
---Hook---

We've always been best friends
No secrets ever kept
But there's one thing I will never tell
You'll never see the pain
You'll never feel this way
Wanna take a place that i could be
