

Elize, Automatic

Every single boy I know,
is thinkin' that he's in control.
Nothing you can do to break down his stuck,
'cause he's mister cool and this is his party.
I've seen it half a million times,
you can play a fooler no rewind.
You always do what she decides,
'cause she's got the key to getting you started.

Heyehey

Automatic, 'cause there's nothing you can do.
Automatic, boy she's takin' over you.
Automatic, when you look into her eyes.
Automatic, boy she's got you hypnoticed.

I'm talkin' to you,
you make her stay, by you.
But you can help me boy, so it's oke (2x)
Boy, you know you need me,
let's misbehave.

You're an information, overcrush.
Push every up, and that's you ***.
skipping the remote or running high,
but you know she's takin' over your body.
Every single finger over her skin.
You can feel your temp,
but you're rising.

Skippin' your assist, I'm overload.
Soon you're gonna need a certain rewriting.
Automatic, 'cause there's nothing you can do.
Automatic, boy she's takin' over you.
Automatic, when you look into her eyes.
Automatic, boy she's got you hypnoticed.
