

Elkland, Apart

you and i will never be apart, apart
you will never erase from my heart, my heart
the distance can't belie
the only hope i have inside
now you do what you do
i'll do what i do
i can't stop dreaming of you

(chorus)

i want you to be here
i want it to be now
i want you to be here
i want it to be now
i want you to be here, here, here, here, here, here

i want it to be now, now, now, now, now, now
i want you to be here, here, here, here, here, here
i want it to be now, now, now, now, now

i remember the day that you walked away from me, from me
i hate to remember the day you walked away from me, from me
what you said to me the other day
was enough to make me feel okay
but i just want to reach you now
and i don't know how

chorus
