## Ellegarden, A song for James

| The hidden lawTh | hat's what I am loo | king forCo-incide | enceOr should I ca | all it fatel'm searc | hing 'round' |
|------------------|---------------------|-------------------|--------------------|----------------------|--------------|
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
|                  |                     |                   |                    |                      |              |
