

Ellegarden, Good Morning Kids

Good morning kids
How do you feel to have been slid out to this world
I wish it was not so bad
But I think no way you feel that way

You'd come to know as you grow up
This world is full of shit

So I wish you don't grow up
And I wish you don't get hurt
And I wish you don't notice that the world is shit
And I wish you don't be sad
But I'm not so afraid 'cause you won't be like me

Good morning kids
How does it feel to have been kicked out to this world
I wish you liked the morning sun
That is one of the most beautiful things

You'd come to know as you grow up
This world is full of shit

So I wish you don't grow up
And I wish you don't get hurt
And I wish you don't notice that the world is shit
And I wish you don't be sad
But I'm not so afraid 'cause you won't be like me
