

Ellen Foley, Nightline

Backing:

Calling on the nightline

Waking me up

Calling on the nightline

Can't get enough

Calling on the nightline

Saying strange things

Calling on the nightline

I can hear it ring

He's calling on the nightline

Waking me up

He's calling on the nightline

Can't get enough

Every night around midnight

I get the call

I reach for my night light

So I can write it all down

Chorus:

He's calling on the nightline

Waking me up

He's calling on the nightline

Can't get enough

He's calling on the nightline

Saying strange things

He's calling on the nightline

I can hear it ring

Make it person to person

And heart to heart

I know for certain

I got the fire

You got the spark

Chorus:

He's calling on the nightline

Waking me up

He's calling on the nightline

Can't get enough

Hello. Oh it's you. What?!!

You've got to be kidding... Well...

Let me sleep on it.???

(Good evening, at the tone the time will be twelve, o'clock, exactly (beep))

Every night around midnight

Your call comes through

You're turning on my night light

Like talking in a dream to you

Chorus:

Calling on the nightline

You can wake me up

He's calling on the nightline

Can't get enough

He's calling on the nightline

whispering in my ear

Calling on the nightline

Telling me what I want to hear

Every night around midnight

I get the call

I reach for my night light

So I can write it all down

Chorus:

He's calling on the nightline

You can wake me up

He's calling on the nightline

Can't get enough

He's calling on the nightline

Saying strange things

He's calling on the nightline
I can hear it ring
He's calling on the nightline
Whispering in my ear
He's calling on the nightline
What I want to hear
He's calling on the nightline
I'm waiting by the phone
He's calling on the nightline
I can hear it ring
