

Ellie Campbell, So Many Ways

(So many ways to say how I love you, how I love you, how I need you baby)
Oh yeah
Oh oh oh
Oooh yeah yeah
Oooh
Eh eh eh eh

I could compare you to the sun in the sky
But that would never do
Walk to the dream that in the morning light
Still comes true

No matter how hard I'm willing to try
Can't find the right words to say how I feel inside

So many ways to say how I love you
How I need you baby
I count the days
Until you believe me
That's all I can do
Until then, gonna tell you more in so many ways

Noone could ever love you more than I do
Boy, this is for real
Somehow I've gotta get the message to you
And I won't rest until

I've found the right words
Come into this time
And when I find them
I'm gonna speak my mind

So many ways to say how I love you
How I need you baby
I count the days
Until you believe me
That's all I can do
Until then, gonna tell you more in so many ways

You are the river that runs in my sleep
Without your loving, this heart would not beat

(So many ways to say how I love you, how I love you, how I need you baby)

So many ways to say how I love you
How I need you baby
I count the days
Until you believe me
That's all I can do (all I can do)
So many ways to say how I love you
How I need you baby
I count the days
Until you believe me
That's all I can do (all I can do)
