

# Ellie Goulding, Fly

In the window  
Faces staring right past me  
They're on a date, feeling happy  
And I go in there and sit with them  
Make them laugh  
And be normal  
For an hour and a half  
Someone's tired  
But not mine

'Cause I just fly, fly, fly  
Only fly, fly, fly  
When things are moving so fast  
You don't have to take them in  
When you're falling up high  
You don't even have to think about it  
About it

Know every station off by heart  
Never get off  
Just go back to the start of my journey  
And I'm never as young as I want to be  
I think I'll never worry

If I fly, fly, fly  
I'll just fly, fly, fly  
When things are moving so fast  
You don't have to take them in  
When you're falling up high  
You don't even have to think about it  
About it

Some day the sky will run out  
The ground will pull me back down  
Back to thinking straight  
Never being late for love that I haven't found

But maybe I should try  
Maybe I should try

I bet he's heavy  
I feel weak  
Talk to people  
But they don't speak  
Always moving, but I still don't know where I'm going

But that's okay, because I'll fly, fly, fly  
I'll just fly, fly, fly  
When things are moving so fast  
You don't have to take them in  
When you're falling up high  
You don't even have to think

I just fly
