

Ellie Goulding, Goodness Gracious

I lost the signal and put you away
Swore upon the sun I'd save you for a rainy day
Loosen the noose and than let go of the rope
I know if it's never coming back it has to go

I keep callin' your name, keep callin' your name
I wanna hold you close but I never wanna feel ashamed
So I keep callin' at night, keep callin' at night
I wanna hold you close I just never wanna hold you tight

Goodness gracious I can't seem to stop
Callin' you, callin' you up just to keep crawlin' into your arms
/2x

I found the weakness and put it to play
Swore upon the stars I'd keep you til the night was day
Shake my head is dizzy so I'll never know
You said if you're never comin' back you have to go

I keep callin' your name, keep callin' your name
I wanna hold you close but I never wanna feel ashamed
So I keep callin' at night, keep callin' at night
I wanna hold you close I just never wanna hold you tight

Goodness gracious I can't seem to stop
Callin' you, callin' you up just to keep crawlin' into your arms
/2x

Callin' you up just to keep crawlin' into your arm
Callin' you up just to keep crawlin' into your arm

My goodness, here I go again
Pullin' u back to me, pullin' u back into my arms so [?]
I don't think I understand cos' I don't really know myself
I keep callin' you up callin' you up
Callin' you up /3x
So I keep call...

Goodness gracious I can't seem to stop
Callin' you, callin' you up just to keep crawlin' into your arms
/2x

Callin' you up just to keep crawlin' into your arms
Callin' you up just to keep crawlin' into your arms
