

# Ellie Goulding, In My City

If I ever had a wish in the whole world  
I would've listened to my brother when he spoke to me  
And I never would've played with my conscience  
In the fields where I was in their company

But You gave me wings and I used them  
I used them, I used them on my youth  
And You gave me wings and I used them  
I used them, and I won't lose them

Now I found my feet count to 1, 2, 3  
And I'm taking off tonight, now I'm free  
As I walk my feet on the cold concrete  
And I and I and I

I can feel my dreams when I'm in my city  
I follow my needs for my, for my city  
We're going off the dream in my, in my city  
And that's where I'll stay  
And that's where I'll stay  
In my city

Rolling down the streets in my new town  
With the lights blinding and my heart played down  
I think I'll get a job receive people's thunder  
But the folks back home I'll make them vouch

You gave me wings and I used them  
I used them, I used them on my youth  
Yeah You gave me wings and I used them  
I used them, I don't wanna lose them  
I don't wanna lose them

I can feel my dreams when I'm in my city  
I follow my needs for my, for my city  
We're going off the dream in my, in my city  
And that's where I'll stay  
And that's where I'll stay  
In my city

Shoulders ache for wanted wings  
My city shakes, the fear in me

I can feel my dreams when I'm in my city  
I follow my needs for my, for my city  
We're going off the dream in my, in my city  
And that's where I'll stay  
And that's where I'll stay  
In my city
