

# Ellie Goulding, Keep On Dancin

People like to talk  
Because they don't know what to say  
Running from the truth  
Because the truth's too much to take  
I keep raising glasses coz I only got today  
I just keep moving  
I just keep moving

You can leave me  
I'll find another  
You can love me  
You'll be my lover  
Happy, in rain or thunder  
Baby I keep  
I keep on, I keep on, I just keep on dancing

I just keep on dancing  
I just keep on dancing

Can you see my, see my headlights  
You can come ride shotgun with me  
Whatever you like, ever you like  
Every time I look at those stars  
Know they ain't got answers for me  
But I'll be alright, I'll be alright

You can leave me  
I'll find another  
You can love me  
You'll be my lover  
Happy, in rain or thunder  
Baby I keep  
I keep on, I keep on

I just keep on dancing  
I just keep on dancing  
I just keep on dancing

You can leave me,  
I'll find another  
You can love me,  
You'll be my lover  
I just keep on dancing
