Elliot Minor, Running Away

My stomach is sore
Don't joke anymore
You treat me like a friend
I'm starting to feel
You're staying for real
But you're leaving now I'm

Drowning out
I feel I'm passing out
The music's louder now
So you can see

Stop running away
Stop running away
Can you see
Can you see
That I've fallen too deep
Fallen too deep
Please, come back where you belong

Stop running away
Stop running away
Can you see
Can you see
That I've fallen too deep
Fallen too deep
Please, come back where you belong

Escape with a smile
It took you a while
You're bored and lost I'm sure
You said move along
And you hate all our songs
You're gone and now I'm

Drowning out
I feel I'm passing out
The music's louder now
So you can see

Stop running away
Stop running away
Can you see
Can you see
That I've fallen too deep
Fallen too deep
Please, come back where you belong

Stop running away
Stop running away
Can you see
Can you see
That I've fallen too deep
Fallen too deep
Please, come back where you belong

Drowning out
I feel I'm passing out
The music's louder now
So you can see
So you can see

Stop running away
Stop running away

Can you see
Can you see
That I've fallen too deep
Fallen too deep
Please, come back where you belong

Stop running away
Stop running away
Can you see
Can you see
That I've fallen too deep
Fallen too deep
Please, come back where you belong
