

Elliot Minor, The Liar Is You

And I was with a girl
Her eyes were shining gold
And she stopped a whole world

And everybody knows
That she's the one it shows
But not today
And here it goes

And all the things we talked about
The dreams were never true
I'm stuck day to day livin' a lie
The liar is you
Now things have to change
Life never stays the same
Life never stays the same

And I was with a girl
She meant so much to me
And now she's gone
I feel alone again
I can't taste the taste of simplicity

And all the things we talked about
The dreams were never true
I'm stuck day to day livin' a lie
The liar is you
Now things have to change
Life never stays the same
Life never stays the same

They're all the same
They're all the same
They're all the same
They're all the

They're all the same
They're all the same
They're all the same
They're all the

They're all the same
They're all the same
They're all the same
They're all the

They're all the same
They're all the same
They're all the same
They're all the

And all the things we talked about
The dreams were never true
I'm stuck day to day livin' a lie
The liar is you
Now things have to change
Life never stays the same
Life never stays the same

And all the things we talked about
The dreams were never true
I'm stuck day to day livin' a lie
The liar is you
(They're all the same)

Now things have to change
(They're all the same)
Life never stays the same
(They're all the same)
(They're all the same)
Life never stays the same
(They're all the same)

And all the things we talked about
The dreams were never true
I'm stuck day to day livin' a lie
The liar is you
