

# Elliot Smith, Cupid's Trick

she's shaking down an  
absence they've known from shock  
reaching around for the hands of the clock  
should've died

pick me up it's my life  
shouldn't picked me up it's my life  
shouldn't picked me up it's my life  
shouldn't pick me up

Cupid's trick comes down to shake and deal  
the stupid kick that makes me real  
should've died

pick me up it's my life

shouldn't picked me up it's my life  
shouldn't picked me up it's my life  
shouldn't pick me up

she's shaking down it's ever over and done  
so kick me, give me  
then I'll know

pick me up it's my life  
shouldn't picked me up it's my life  
shouldn't picked me up it's my life  
shouldn't pick me up
