

# Elliott Smith, Happiness

Activity's killing the actor  
And the cop's standing out in the road  
Turning traffic away  
There was nothing she could do until after  
When his body'd been buried below  
Way back in the day  
Oh my, nothing else could have been done  
He made his life a lie so  
He might never have to know anyone  
Made his life a lie you know  
I told him that he shouldn't upset her  
And that he'd only be making it worse  
Involving somebody else  
But I knew that he'd never forget her  
While her memory worked in reverse  
To keep her safe from herself  
And oh my, nothing else could have been done  
She made her life a lie so  
She might never have to know anyone  
Made her life a lie you know  
What I used to be will pass away and then you'll see  
That all I want now is happiness for you and me  
What I used to be will pass away and then you'll see  
That all I want now is happiness for you and me  
What I used to be will pass away and then you'll see  
That all I want now is happiness for you and me
