

# Elliott Smith, No Life

No life  
No life  
Everything you need  
To keep it together  
To keep you off the street

No life  
Once I used to see  
A beautiful stranger  
Walking next to me

Sometimes it's a long time coming

No life  
No life  
Still a part alive  
For offering nothing  
You get it in return

No life  
Pushed away the hand  
For they might've found you  
Found some other man
