

Elliphant, Drunk & Angry

Drunk and angry
Crying in the snow
Drunk and angry
Emotional implode

Couldn't stop it
From a river to a storm
My lide jacket
Fell off in the alcohole

At the first place they say
I have the wrong shoes
At the second place
Tehy say i was too drunk
By the third palce
I really blew my chances
Kicking in the windshield of a cab

It's buzzing in my bag
The girls are on their way
So now i know everything gonna by okay
And they ask if i need something from 7-eleven
-eleven

All i need right now is them
And i am sorry
I got mad again
Yeas
But All i need right now is tchem
And i am sorry
I am so sad again
Been bad again

The bouncer was so rude
I tried
But when the anger coems in's like
Everything gets dark inside
I hate it when it's dark inside

So i need right now is tchem
That will love me
When i am sad again
Beed bad again
Yea
