

# Elliphant, Had Enough

When i saw you  
You where alone there looking heavy at the bar  
Mm  
Yeah, i gad to ask you  
What's your name  
Where you from  
And who you are

And all i got was get away  
Leave me alone  
Whatever you say  
I donn't want to know  
Please just go  
But i stayed  
How could i leave  
I wouldn't let you hold me down  
Like this no more  
No more
