

Elnur Huseynov and Samir Javadzade, Day After

For peace we pray
Save us from all fears
Oh Lord, save us
For the perfect angel of love
Melody of song
To be dependent on yourself
Choose the right way of life
Our dreams can play with us
Even if we think that we keep control
If you're searching for resolves
Be ready for the tolls, yeah...
Show us the right way
Day after day
All fears we must forget
Then better world we'll get
For the perfect angel of love
Melody of song
To be dependent on yourself
Choose the right way of life
Our dreams can play with us
Even if we think that we keep control
If you're searching for resolves
Be ready for the tolls, tolls
Show us the right way
Day after day
All fears we must forget
Then better world we'll get
Then better world we'll get
Then better world we'll get
Day after day
All fears we must forget
Then better world we'll get
Then better world we'll get
Then better world we'll get
Then better world we'll get
