

# ELO, Night In The City

Standin' at the airport  
Lookin' down the strip  
She was dryin' her eyes,  
She was bitin' her lip  
Seven-four-seven just left from Gate Eleven  
And there's no turnin' 'round  
'Cause it's just leavin' the ground  
And gettin' higher, higher.

Standin' at the dock-side  
Lookin' out to sea,  
When I saw her  
But she did not see me  
There she stood with no hope  
Because she'd missed the boat  
And as her dreams sailed away,  
She headed back for the day  
Back to the city, city.

Night in the city, o-o-oh  
Madness at mid-mid-mid-midnight  
Night in the city drivin' you insane.

In the city...

In the city, city...

Night in the city, o-o-oh  
Madness at mid-mid-mid-midnight  
Night in the city drivin' you insane.

I was runnin' kinda lonely  
At the city place  
I waited for an hour,  
I never saw her face  
Crazy ladies that wait  
And slide around like a snake  
I just can't take anymore,  
I'm going in through the door  
Into the city, city.

I'll get you, yes, I'm gonna get you  
I'll get you, yes, I'm gonna get you  
I'll get you, yes, I'm gonna get you  
I'll get you, yes, I'm gonna get you  
I'll get you, yes, I'm gonna get you  
I'll get you, yes, I'm gonna get you  
I'll get you, yes, I'm gonna get you  
Drivin' you insane.

Night in the city, o-o-oh  
Madness at mid-mid-mid-midnight  
Night in the city drivin' you insane,  
Drivin' you insane,  
Drivin' you insane.
