Now that you know I'll ask you to stay away  
Looking it's always been bright  
Focusing Focused in  
Looking it's always been but you knew  
I'm focused in focused in  
Looking it's always been but you knew  
It's like a perfect storm on the way  
How can I be strong? to the illusion  
That I need you  
I'll dismember you Hover me Hover you  
Covered in steam discover you  
Hold your fear covered in sting
