

# Elton John, All That I'm Allowed (I'm Thankful)

(Elton John/Taupin)

Breaking down never seems to be that hard  
Falling short is always in the cards  
I'm on the road sunrise is at my back  
Lost it all somewhere between the cracks.

I always hoped that I'd do better  
That I'd come out on top for once  
We all get what we deliver  
Then there are the lucky ones.

And I got all that I'm allowed  
It'll do for me, I'm thankful now  
The walls get higher every day  
The barriers get in the way  
But I see hope in every cloud  
And I'm thankful - Thankful,  
I'm thankful, So thankful  
I'm thankful  
I've got all that I'm allowed

Laving town gets to feel just like a job  
My desire never winds up on top  
I can say now I didn't want the moon  
It's out of reach  
Somewhere beyond this room

I always hoped that I'd do better  
That I'd come out on top for once  
We all get what we deliver  
Then there are the lucky ones.

And I got all that I'm allowed  
It'll do for me, I'm thankful now  
The walls get higher every day  
The barriers get in the way  
But I see hope in every cloud  
And I'm thankful - Thankful,  
I'm thankful, So thankful  
I'm thankful  
I've got all that I'm allowed

And I got all that I'm allowed  
It'll do for me, I'm thankful now  
The walls get higher every day  
The barriers get in the way  
But I see hope in every cloud  
And I'm thankful - Thankful,  
I'm thankful, So thankful  
I'm thankful  
I've got all that I'm allowed
