

# Elton John, I Get A Little Bit Lonely

Written by Reg Dwight

Never thought I'd miss you  
When you said goodbye  
Never thought I'd see the day  
That I break down and cry  
Won't you come on back to me  
Back where you belong

'Cause I get a little bit lonely baby  
Lonely and blue missing you  
I get a little bit lonely baby  
If you ever come back, gonna be true

Oh I know I hurt you  
Couldn't you forgive  
For I know without you  
It's impossible to live  
I want you back in my arms again  
Back where you belong

Come on baby  
Let's forgive and forget  
And even though things are bad  
I'm gonna get you yet
