Elton John, I Get A Little Bit Lonely

Written by Reg Dwight

Never thought I'd miss you When you said goodbye Never thought I'd see the day That I break down and cry Won't you come on back to me Back where you belong

'Cause I get a little bit lonely baby Lonely and blue missing you I get a little bit lonely baby If you ever come back, gonna be true

Oh I know I hurt you Couldn't you forgive For I know without you It's impossible to live I want you back in my arms again Back where you belong

Come on baby Let's forgive and forget And even though things are bad I'm gonna get you yet
