

# Elvis Presley, Love Machine

Step right up to the love machine  
You may get lucky when you zap a dream  
Let the wheel go round, round and round  
You may win that girl you've never found

She may be Suzy or Maybelline  
She could be Cathy or Angeline  
Let the wheel go round, round and round  
Try your luck right now on the love machine

We're just a bunch of salty sailors  
One thing on our mind  
Takin' a chance on this machine  
Maybe love we'll find  
She maybe tall she maybe short  
She may be wide  
But Lady Luck stop that wheel  
On 38-24-35  
Step up, whose next in line  
This love machine don't waste no time

Let the wheel go round, round and round  
What will your fortune be on the love machine  
All right

We're just a bunch of salty sailors  
One thing on our mind  
Takin' a chance on this machine  
Maybe love we'll find  
She maybe tall she maybe short  
She may be wide  
But Lady Luck stop that wheel  
On 38-24-35  
Step up, whose next in line  
This love machine don't waste no time

Let the wheel go round and round and round  
And round and round and round and round  
What will your fortune be on the love machine

What will your fortune be on the love machine
