

# Elvis Presley, Wonderful World

(D. Fletcher / M. Flett)

This is a wonderful day  
It's as bright as a day's ever been  
There is a big yellow sun looking down  
On a wonderful scene

Up in the blue sky birds fly  
And sing our cares away  
And out of each throat each note  
Greets a wonderful day

There is the sound of a symphony  
Carried along on the breeze  
Even the flowers are swaying in time  
With the leaves on the trees

Heaven is found right here on the earth  
It surrounds us in the wonderful things all around  
In this wonderful wonderful  
Wonderful wonderful world

This is a wonderful day  
It's as bright as a day's ever been  
There is a big yellow sun looking down  
On a wonderful scene

Heaven is found right here on the earth  
It surrounds us in the wonderful things all around  
In this wonderful wonderful  
Wonderful wonderful world  
Wonderful world, this wonderful world  
Wonderful world, this wonderful world  
Wonderful world, this wonderful world
