

Ely Guerra, Angelito Heart

You are that angel who took my heart
now I'm bleeding, messing up all over my house
I am the girl that's holding a hole
emptiness is crying it makes me feel alone

If I drink a whisky with my girlfriends
my heart is not with me
if I cook a meal for all my best friends
my heart is not with me
if I sing a song for mom and daddy
my heart is not with me
if I'm by myself thinking about it
my heart is not with me

I'm in my bedroom, I'm in my car
I am at the movies, now I'm in a bar
so, beautiful angel: what can I do?
nothing really matters I rather be with you

If I drink a whisky with my girlfriends
my heart is not with me
if I cook a meal for all my best friends
my heart is not with me
but if you decide to come around me
the wound may stop to bleed
and if you enjoy my smile my angel
you should stay with me
