

Elysian Fields, Off Or Out

Can't get you off or out of my
Can't get you off or out of my
Can't get you off or out of my head
Head for the sun in your belly
You need a soul to find you out
Make you windy windy
We were so windy winding flying
Backwards rolling sliding
Red light crazy shining
Haze garden pure strain highway
Can't get you off or out of my
Can't get you off or out of my
Can't get you off or out of my head
Red silver suns in your belly
You need a dream to drown you out
Make you windy windy we were so windy
Winding dying inside sucking outside
Spouting heavy moonlight
Dazed shotgun your stain my way
Can't get you off or out of my
Can't get you off or out of my
Can't get you off or out of my head
