

# Elysian Fields, Shooting Stars

I've lost you once again  
But I can't lose heart  
To watch this dream descend  
Just tears me apart  
You close your eyes  
And you can't hear me  
Fast asleep in your bed of misery  
Baby get out of bed  
Don't close your eyes my sleepy head  
Don't close your eyes my sleepy head  
Look at all the shooting stars  
Billions of shooting stars  
Streak the sky  
Dazzling diamond light  
You're lost to me  
And you can't break free  
Wrapped in the gloom of ancient history  
Baby get out of bed  
Don't close your eyes my sleepy head  
Don't close your eyes my sleepy head  
Look at all the shooting stars  
Billions of shooting stars  
Streak the sky  
Dazzling diamond light  
Watch the night  
Gather shooting stars  
Baby throw off that cloud  
The bed of thorns that lay you down  
Quick like silver out of bounds  
Look at all the shooting stars  
Some of them could be ours  
Stream the sky  
Dazzling diamond light  
Wish I might  
On shimmering shooting stars  
Glimmering shooting stars  
Dimming  
Shooting stars
