

Elysian Fields, Star

Round, round, and around
Surrounding my planet
Arousing my planet

Round, round, and around
Surrounding my planet
Arousing my planet

My heart beats madly like a drum
Beaten chamber, almost numb
It's beating faster and faster
Slow down dear, slow down

Round, round, and around
Flying me forward
Thrusting me far
Round, round, and around
You caught me a star

You can make me if you try
Gently like a lullaby
You dig me deeper and deeper
Go down dear, go down

You are the ink, drawing me
You are the mouth, gnawing me
Yours in the voice, calling me
Star, star

You can make me if you try
Gently like a lullaby
Hold me tight inside your arms
Make me feel just like a star
Like a star

You can find me if you try
Slip into the needles eye
Fold me, hold me like a charm
Make me feel just like a star
Like a star, like a star
Like a star, like a star
